HEXAGON

**shaw** contract group®

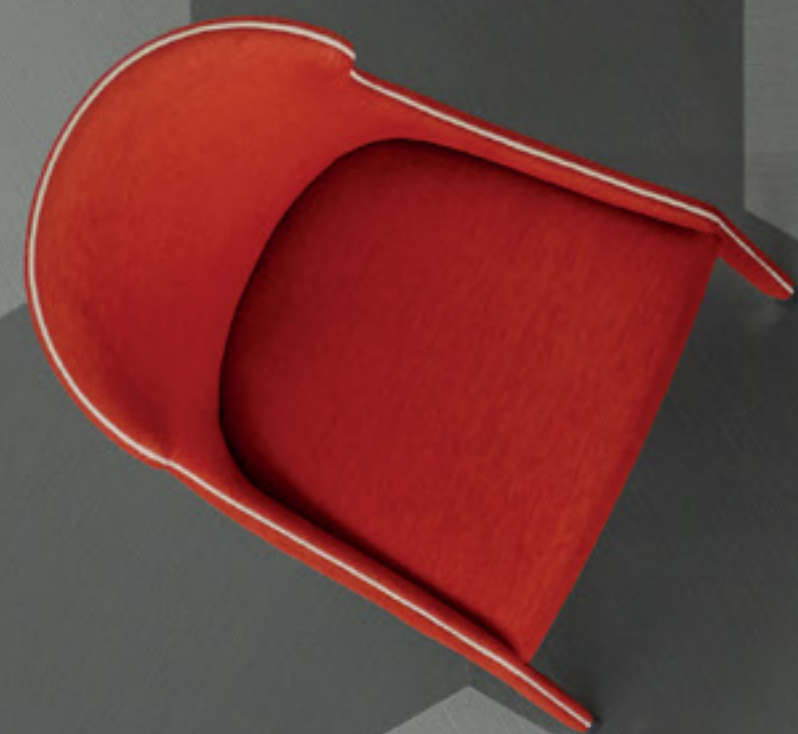

A hardworking, mathematical wonder. Hexagon LVT is a six-sided connector of space, influencing the ways we work, move, communicate and create. This shape of resilient tile will veer you off the beaten path with a 20 mil wear layer that's built to last. So much collaborative chemistry, it's geometric genius.

**Design is networked.**

NONLINEAR  
THINKING

There are six sides to every connection.

level LVT

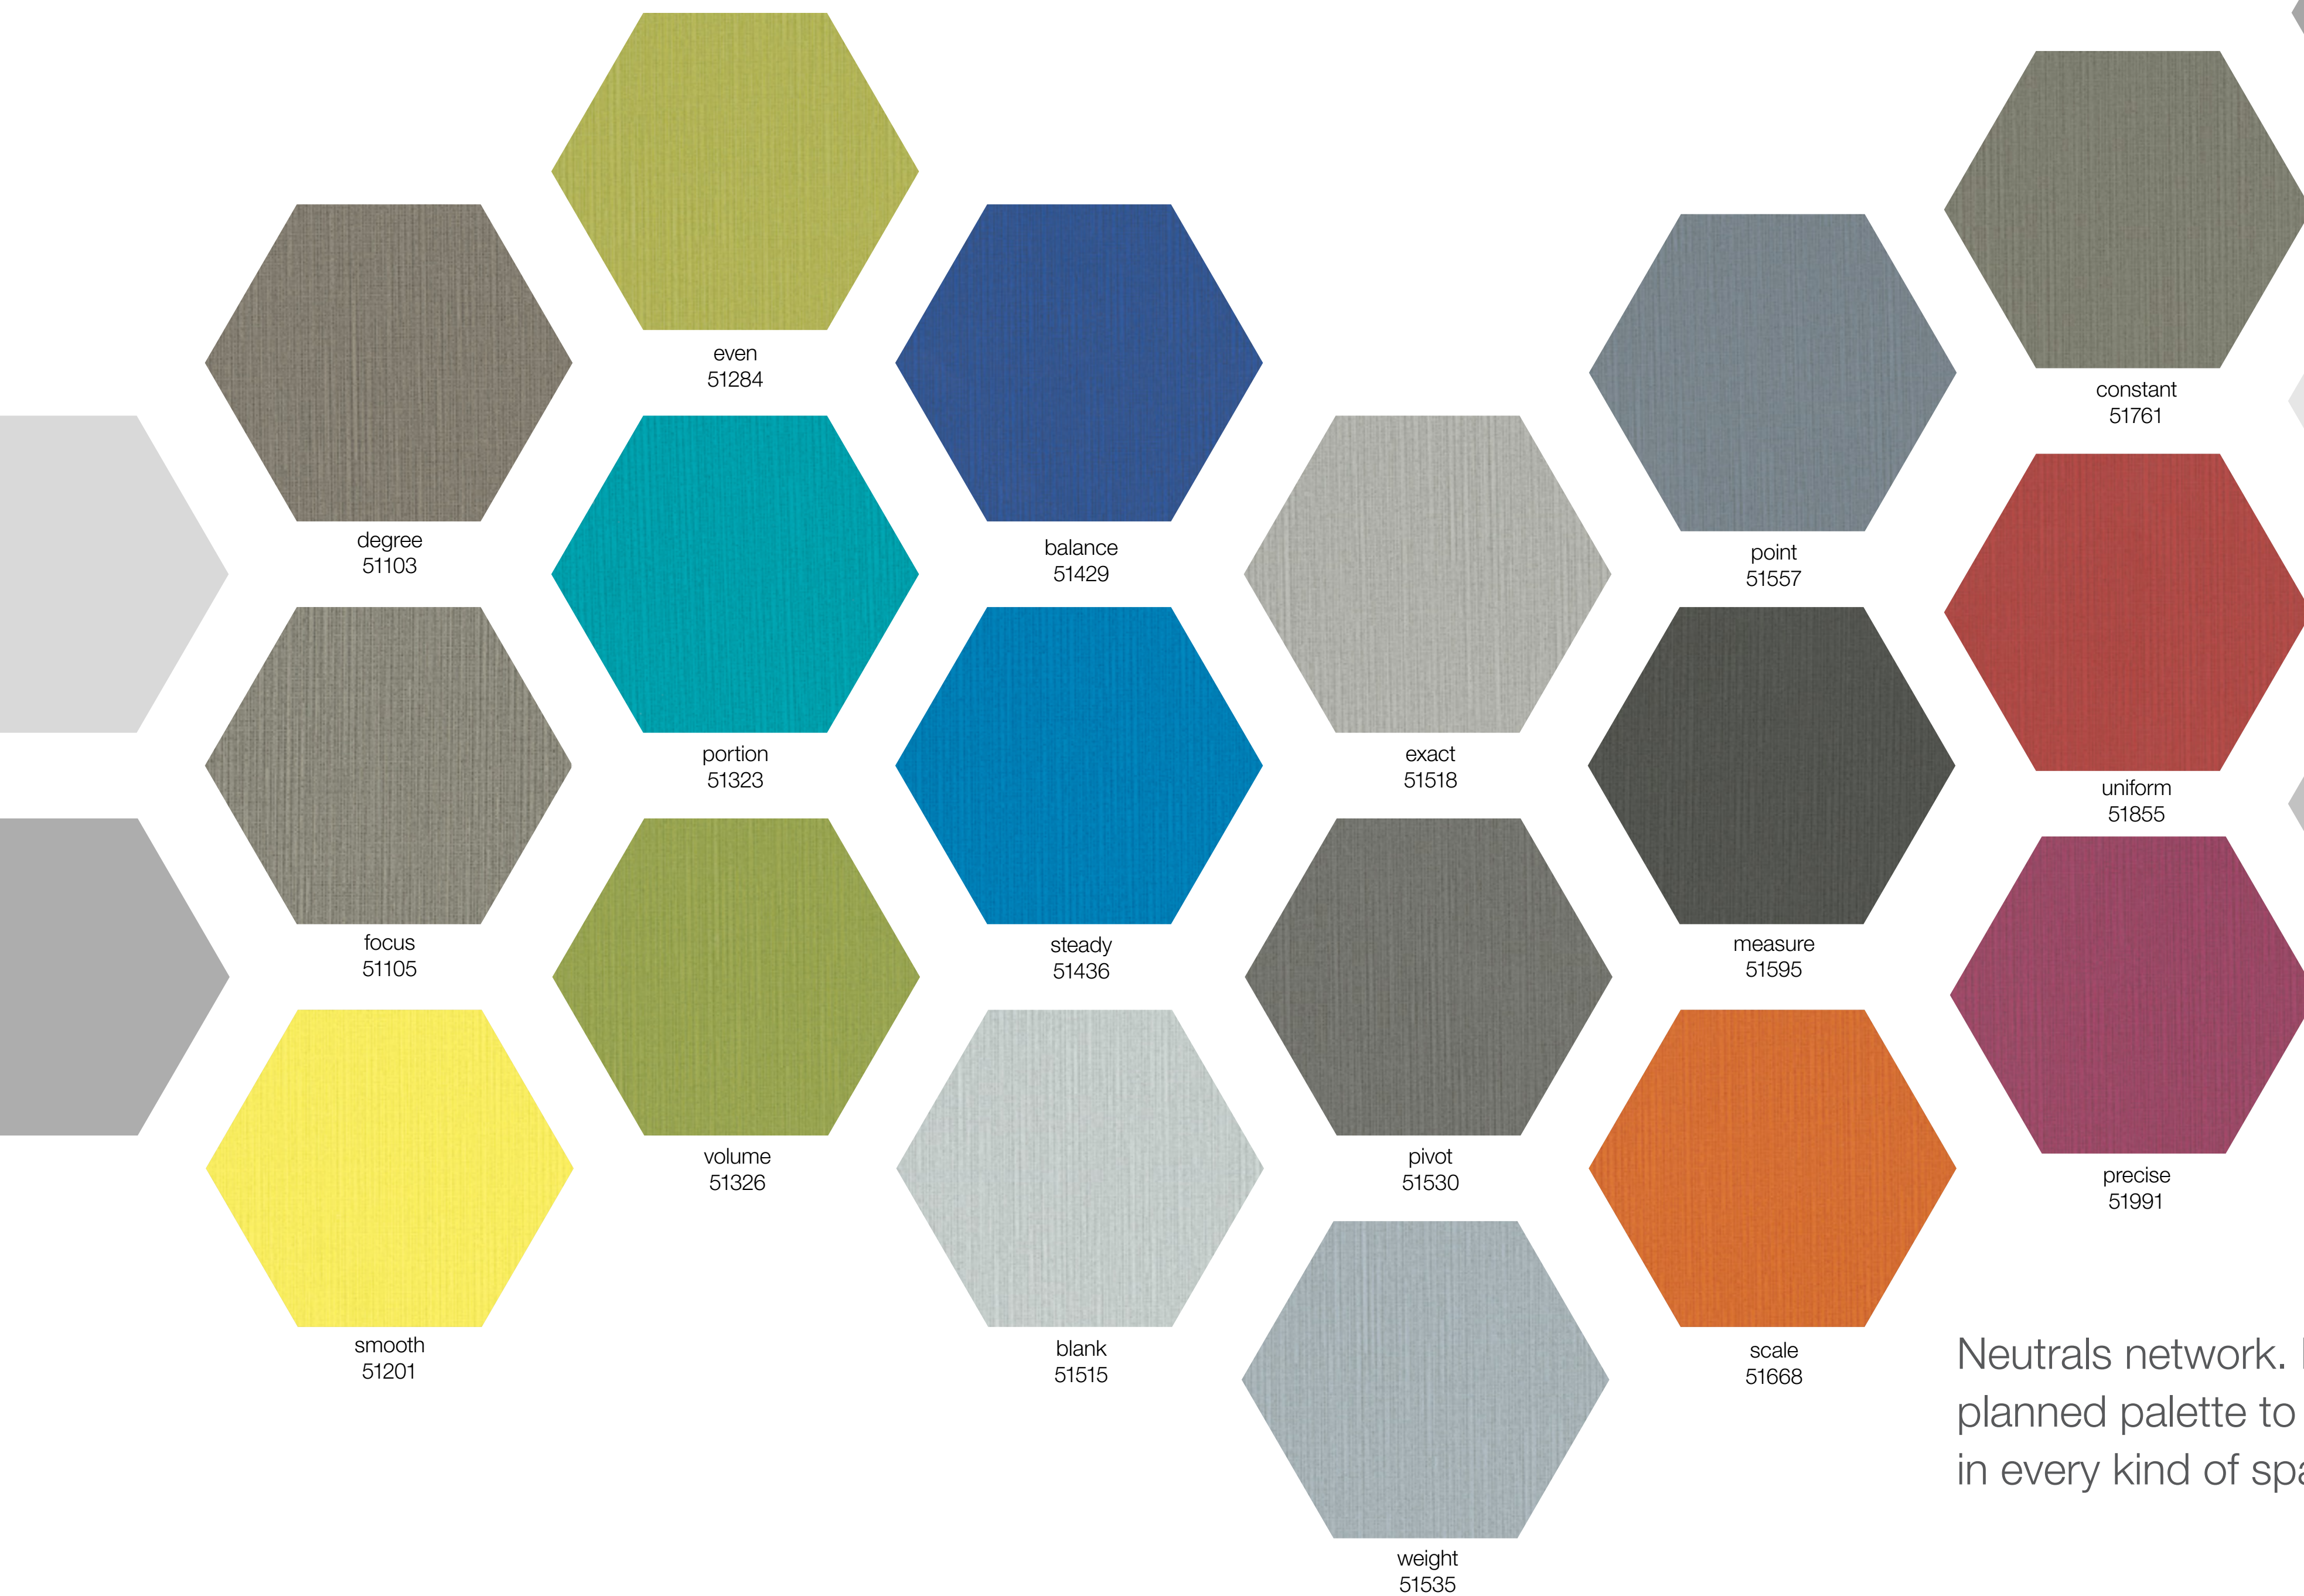

Bond thinkers together. Form a social web.

level LVT + bevel tile

# CONGRUENT COLOR

level LVT colors

Neutrals network. Brights pop. A thoughtfully planned palette to color every sort of connection in every kind of space.
