

The image features a close-up of a modern lamp's internal structure. It consists of several thin, curved metal rods in a dark, possibly black or dark blue, finish. The rods are arranged in a complex, overlapping pattern that forms a series of loops and curves. The background is a solid, deep blue color. The lighting is soft, highlighting the metallic texture of the rods.

Ludovica + Roberto Palomba

↪ 2019

Ludovica + Roberto Palomba, the golden couple of Italian design, for over 25 years have been designing products that escape the trends.

First of all, they have a philosophical approach: the search for essence in every project, closer to the concept of balance of oriental heritage rather than to the nordic style, the goal of their work is not only an aesthetic result but the well-being.

They have received numerous international awards and recognitions such as Compasso D'Oro, Elle Decoration International Design Award, Red Dot, Design Plus, Good Design Award and German Design Award.

## ↗ Perception

“An organic synthesis of imaginary spaceships – a cross between liana and architecture – in short, an organic graphic light of alien forms that are constructed with different modules to generate wholly unexpected scenarios where light and the illuminated object become one.”

-Palomba & Serafini

## ↗ Sculpture of light

Arrival is a complete lamp family with dynamic, flowing shapes that sculpt light with delicate, graphic lines. Branching out from a central base, each model has three arms that form a soft, organic geometric shape through a profile that is both light and structured.

## ↗ Soft

Each element has a section that leaves the aluminum profile visible from the outside while generating a light-diffusing surface inside. The resulting elements blend into spaces with a presence that is discreet yet distinctive thanks to the shape and quality of the softly diffused light. The delicate and organically shaped arms of the lamp create a fluid design.

## ↗ Elegant

These are elegant lighting tools, perfect for individual use or as a series combining different versions together to create a modern, sculptural work of art and light.

Technical Data

Arrival Table

- Black
- Brass

**Description**  
• Body constructed of aluminum and silicone

Light Source

LED-I  
17W 3000K>90CRI

Voltage

120-240V

Delivered Lumens

555 lm

Arrival Floor

- Black
- Brass

**Description**  
• Body constructed of aluminum and silicone

Light Source

LED-I  
77W 3000K>90CRI

Voltage

120V

Delivered Lumens

2422 lm

Arrival 70 Ceiling

- Black
- Brass

**Description**  
• Body constructed of aluminum and silicone

Light Source	Voltage	Delivered Lumens
LED-I 26W 3000K>90CRI	120V	809 lm

Arrival 130 Ceiling

- Black
- Brass

**Description**  
• Body constructed of aluminum and silicone

Light Source	Voltage	Delivered Lumens
LED-I 48W 3000K>90CRI	120V	1618 lm
