Antonio Citterio, 2021

vitra.

ID Visitor is a comfortable touchdown chair designed by Antonio Citterio in collaboration with Vitra, perfectly coordinated with the ID Chair Concept. Thanks to its understated functional design, ID Visitor can be combined with almost any office chair and integrated in a wide variety of work environments.

The backrest can be selected from a choice of four versions to match those of the other ID Chairs. The base follows the same construction as the legendary Visavis visitor chair from Vitra, but the new backrests and powder-coated materials give it fresh contemporary appearance.

The seat cushions and upholstered backrest versions are also available in polyurethane-free recyclable foam. This upholstery padding – manufactured using a brand-new technology – adapts to the shape of the user and offers excellent comfort.

With a broad selection of upholstery fabrics and colours, it is easy to find the perfect ID Visitor chair for every office environment.
