NEIL POULTON

Born in Scotland in 1963, Neil Poulton is best known for technology-based product design including the Ageing Pen, made from "living" plastic which wears away with use and LaCie's ground-breaking FireWire Speakers.

Having created multiple award-winning products for companies all over the world, Poulton lives and works in Paris where he continues to focus on simple, mass-produced objects of practical use.

CONTEMPORARY

Talo’s sleek and sultry aluminum body complements any interior with a subtle contemporary touch, whether residential or commercial.

VERSATILITY

Its wide variety of sizes makes Talo perfect for almost any lighting need, providing both direct and indirect energy-efficient LED or fluorescent lighting. Available in five lengths, Talo embodies the suitable size for any type of environment.

REIMAGINED

This strip light fixture's technology has been reimagined to adapt to today's standards of intelligent, eco-friendly, and energy efficient LED lighting.
